Attention: Mr. Keith Kahle

Dear Mr. Kahle:

Your letter and descriptive literature to the Director has been forwarded to this Office for action. In order to be placed on our Bidder's Mailing List, we would appreciate your completing and returning the enclosed Solicitation Mailing List Application and Certificate Pertaining to Foreign Interests (TO BE COMPLETED BY THE PARENT COMPANY) to the address below:

Procurement Management Staff
Office of Logistics
Central Intelligence Agency
Washington, D.C. 20505

Upon receipt of the completed forms, the name of your company will be placed on our Bidder's Mailing List. Your descriptive literature and forms will be forwarded to those components within this Agency who would have an interest in your capabilities. The interested component will contact you directly when there is a need or a requirement.

Thank you for offering your services to the Central Intelligence Agency.

Sincerely,

Procurement Management Staff
Office of Logistics

Mr. William J. Casey
Director
Central Intelligence Agency
Old Executive Office Building
Washington, D. C. 20506

Dear Mr. Casey:

In regard to the far reaching "War on Drugs" legislature which was passed by Congress and signed by the President on October 24th, our company is highly interested in the details of the activation. We anticipate your office will be involved and we desire to promptly express our solid interest.

ElectroCom Automation, Inc., has a high interest in assisting the worthwhile "intent" of the legislation as well as supporting the specific actions and work to be done, as stated in the law.

The above high tech company is a leader in certain types of "Communications" available to those Federal agencies who are, or will be involved directly or indirectly on this "War on Drugs."

A sample of our present skills is illustrated ... for example: ElectroCom Automation, Inc., today is in the process of installing a communications system for the Los Angeles County Sheriff's office covering all of Los Angeles County. The system links scattered officers and patrols over the large county. They all will have "instant voice and data communications" with headquarters.

The above company is knowledgeable on other types of law enforcement communications, especially "Silent Communications" and related research and development dedicated towards linking multi-agency communications networks.

ElectroCom Automation Inc. • P.O. Box 95080 • Arlington, Tx. 76005-9080

Page Two
Mr. William J. Casey
November 12, 1986

ElectroCom Automation is a major contractor to the U.S. Postal Services and is now manufacturing and delivering over 850 machines to various offices across the nation. Each machine has the capability of sorting in excess of 30,000 envelopes an hour. We also build equipment for the U.S. Air Force and U.S. Navy for the high speed handling of microfiche jackets which could provide a major capability to store and retrieve various types of records, paperwork and files as related to the "War on Drugs."

Since this popular massive effort of a "War on Drugs" is in its early formative state, we at ElectroCom Automation, Inc. will greatly appreciate you and your associates immediately adding said company's name and address to your mailing lists to receive copies of all news releases, speeches, reports, findings, etc. ElectroCom Automation will appreciate receiving whatever other appropriate information you folks will be issuing from time to time, as related to this far reaching law enforcement project.

The writer requests an acknowledgment of this missive. Further, we also request being placed on your bidder's lists, etc.

We at ElectroCom Automation look forward to assisting this major project ... from a business and private citizen standpoint ... to take part in the elimination of those involved in the American "Drug Scene."

Sincerely,

Keith Kahle
Advisor to the President
